

WALLFLOWERS

FAQ's

How long is the course?

This is a six-month course. You'll continue to have full access to all the course materials indefinitely, after the six-month course.

What yarn should I use?

This blanket was designed for **DK Rowan Felted Tweed**. I highly recommend using this yarn because of the amazing range and quality of the colours, but this is not essential and other yarns may be used.

The visual impact of the finished blanket is achieved mostly through the combinations and relationships of colours and this is the result of careful planning and consideration which will be covered, in depth, at the beginning of the course.

What hook size will I need?

If you're working with Felted Tweed I recommend a 3.75mm hook for the blanket and either a 3.25 or a 3mm for the trim.
This will depend on your tension.

How much yarn will I need?

The finished blanket will weigh approximately 1750gms and requires approximately *43 x 50gm balls of yarn. *this may vary according to your tension.

How many different colours will I need?

The design uses 16 colours in total, and the colours are divided into 3 groups

- Background Colours
- Flower Colours
- Leaf Colours

Can you tell me what colours I need?

Choosing your own colours is a really important part of this project and I'll cover this in detail as part of the course early on. I'll guide you through the **Felted Tweed** collection and help you make informed decisions with some playful colour exercises designed to both challenge and inspire you. The first part of the course is all about planning, playing, sourcing and ordering your yarn so you know you'll achieve the very best results you can.

My advice is; however excited you are to get started on this project it really is best to be patient if you can and wait until the course starts before buying your yarn.

What if I want to buy my yarn now?

Of course, you can buy your yarn before the course begins if you know what colours you want to work with. As soon as you've booked and paid for your place on this course, you'll receive a detailed breakdown of colours and some suggested colourways to help if you want to buy your yarn before the course begins.

I can't, however, engage in one-to-one advice about yarn and colour choices until the course begins in May

Can I use a different yarn?

Yes of course! You can absolutely use any yarn you like for this project, just bear in mind that I won't be able to help you calculate yardage, tension or the finished size of your blanket if you're using a different yarn. But choosing your colours will follow exactly the same principles.

What size is the finished blanket?

If you work with Felted Tweed and to the suggested tension in the pattern your finished blanket will be approximately 160 x 135cms

Is this course suitable for beginners?

I think this really depends on how determined you are to make this blanket!

I don't think there are any really complicated techniques in this project, it's mainly just the basic stitches worked as 'popcorns' 'clusters', 'puff stitches' etc. The biggest challenges are:

- The volume of crochet needed. It's ALOT of crochet!
- Identifying and counting stitches.

So, if you're prepared to put in the hard work, and you know the basics, I think anyone could do this!

Do you include left-handed instructions?

Yes! All the workshops include left-handed stitch diagrams and videos.

Do you include American terminology?

No. All instructions use UK terminology.

Why won't the booking link accept my postcode?

There is another box which is easy to miss which requires your postcode – it is often in the card details section. Please ensure you scroll all the way down and enter your postcode in every box it asks for.

You can also try:

1. Try omitting the space in the postcode
2. Do not enter a postcode at all
3. Try on another device

When and how will the live Q&A sessions take place, does it matter which time zone I'm in?

These will take place on Zoom and they will be timetabled to allow for different international time zones. These are optional and there's no expectation to take part in these – no formal teaching takes place in these sessions. Full instructions on how to access the sessions will be given.
